

MASIA offers a wide variety of synthetic lubricants for Compressors, formulated on synthetic bases (Polyalkylene Glycol), designed to work on the most hostile applications in Compressors and to offer an excellent performance, at the lowest price. The tests and continuous research combined secure the use of the best additives so that we can ensure the full elimination of foaming, oxidation and accumulations.

**Application:** Screw Compressors.

**Lifetime:** 8.000 hours.

Features and Benefits	
Excellent Oxidation Stability	Energy Savings
High Viscosity Index	Carbon and Varnish Control
High Flash Point	Low Maintenance Cost
Reduced Downtime	Low Volatility
Extremely High Film Strength	Excellent Material Compatibility
Excellent Coolant Properties	Low Lubricant Consumption
Long Fluid Life Cycle	Excellent Corrosion and Rust Control

Lubricant		KOPGI
ISO Grade		<b>46</b>
Viscosity Index		<b>172</b>
cSt @	100°F / 40°C	<b>45,7</b>
cSt @	212°F / 100°C	<b>8,68</b>
Flash Point	°F / °C	<b>462 / 239</b>
Pour Point	°F / °C	<b>-63 / -53</b>
Demulsibility, 30 Min @ 130 °F		<b>Excellent</b>
